

WELCOME BACK!

Welcome back GSIC families and friends for the 24-25 school year! This will be the **10th year** of the school's existence, and there continues to be tremendous progress and growth! Our students, staff, and stakeholders are to be commended for their contributions to the many accomplishments we have enjoyed since the beginning. Once again, GSIC scholars outperformed local districts and the state average in most every grade level and content area; math scores are just in and being reviewed. Reading levels for elementary, middle, and high school are well above average. *More detailed information will be posted soon.*

Don't forget to check the website periodically. The annual calendar is filled with enriching activities for the students, their families, and our community for the current school year. Academic offerings have been increased, and athletic programs have also expanded with the addition of middle and high school **volleyball**. The middle and high school **softball** seasons have been in full swing since this summer; and both **cheerleading** squads are bringing the **Patriot Spirit** to our first season of HOME **football** games! There have already been plenty of exciting games, big plays, adoring fans, and winning results! The **Fall Festival** is planned for **November 16th**, which will be our first major school-wide, community event.

For the second year in a row, we will be welcoming over **1000 students in kindergarten through 12th grade**. We ask that everyone be patient, especially for the first few weeks, while everyone is getting back to the daily routines and new families are getting accustomed to different procedures. **Car lines** will take longer than usual the first few days while everyone gets into the flow. *Directions, information, and important updates will be sent via Dojo and posted on the website as needed.*

Parents, **thank you** for choosing GSIC for your children, as we continue to demonstrate excellence in education! As always, the faculty and staff are committed to helping each of our students achieve their fullest potential, which we know will be most successful when parents, teachers, and students work together. Let our tenth year be the best one yet! Your encouragement and support are greatly appreciated!

Julie Hawkins
